Phone: (711) 577-6377 x7124

Location: North Michaelport

Hourly Rate: $53/hr

Total Experience: 8 years

Summary

Detail-oriented programmer with 8 years of experience in software development, specializing in building and maintaining applications. Proven ability to mentor peers and adapt to changing environments while maintaining effective cross-functional communication.

Education

B.Sc. in Computer Science

University of California, Berkeley

- **Rank:** #4
- **GPA:** 3.5

Skills

- **Node.js:** Advanced (5 yrs)
- **Go:** Intermediate (2 yrs)
- **Java:** Intermediate (2 yrs)
- **JavaScript:** Beginner (1 yr)
- **PyTorch:** Expert (8 yrs)
- **Data Science:** Beginner (1 yr)

- **Docker:** Intermediate (3 yrs)

Soft Skills

- Mentoring
- Adaptability
- Cross-functional Communication

Languages

- **English:** C1
- **German:** B1

Certifications

- **Certified Kubernetes Administrator**
- **Score:** 839
- **Expiration:** 2027-05-19

Experience

Software Engineer

Tech Innovations Inc. (FinTech, Startup)

Jan 2020 - Present

- Developed a **Payment Processing System** using Node.js and Docker, improving transaction speed by 30%. - Led a team in building a **Mobile App** that enhanced user engagement by 50%, implementing best practices in software development. - Collaborated on a **Data Analytics Dashboard** to provide insights into customer behavior, utilizing PyTorch for predictive modeling.

Full Stack Developer

Creative Solutions LLC (E-commerce, Enterprise)

Jun 2016 - Dec 2019

- Designed and implemented a **Web Application** for inventory management that streamlined operations and reduced processing time by 40%. - Contributed to the development of a **Content Management System** with Java and Go, enhancing the user experience for over 5,000 active users. - Engaged in cross-functional teams to improve project workflows and deliver high-quality software solutions.

Junior Developer

DataCorp Ltd. (Data Analytics, Startup)

Jul 2014 - May 2016

- Assisted in creating a **Data Analytics Dashboard** that supported data-driven decision-making processes. - Developed initial prototypes using JavaScript and Node.js, laying the groundwork for future project enhancements. - Participated in mentorship programs, helping new developers acclimate to the coding environment.
