Phone: 001-559-236-7280x126

Location: Cristinatown

Hourly Rate: $62/hr

Total Experience: 7 years

Summary

Results-oriented programmer with 7 years of experience in software development, specializing in building scalable applications and machine learning pipelines. Proven ability to adapt and solve complex problems in fast-paced environments. Strong skills in Agile methodology, conflict resolution, and effective problem-solving.

Education

PhD in Artificial Intelligence

ETH Zurich, Switzerland

Rank: #9, GPA: 3.71

Skills

- **JavaScript:** Beginner (1 year)
- **TypeScript:** Beginner (1 year)
- **Next.js:** Advanced (6 years)
- **PostgreSQL:** Beginner (1 year)
- **Machine Learning:** Intermediate (2 years)
- **MongoDB:** Expert (7 years)
- **AWS:** Intermediate (2 years)

- **Kubernetes:** Beginner (1 year)
- **Docker:** Intermediate (3 years)

Soft Skills

- Problem Solving
- Conflict Resolution
- Agile Methodology

Languages

- English (C1)
- Polish (C2)
- Spanish (B1)

Certifications

- **Docker Certified Associate**
  Score: 802, Valid until: 2028-10-04

Experience

Senior Software Engineer

Company: Tech Solutions Inc.
Industry: FinTech
Size: Enterprise
Duration: 3 years

- Developed and maintained a **Mobile App** that streamlined financial transactions, improving user engagement by 30%.
- Implemented a **Microservices Architecture** for backend services, enhancing scalability and reducing downtime by 40%.

- Collaborated with cross-functional teams to design and deploy a **Machine Learning Pipeline** for predictive analytics.

Software Developer

Company: Innovatech Labs
Industry: HealthTech
Size: Startup
Duration: 2 years

- Designed and implemented RESTful APIs using **Next.js** and **MongoDB**, which supported a seamless integration of health monitoring features in mobile applications.
- Led the transition of legacy systems to **Docker** containers, increasing deployment speed by 50%.
- Participated in Agile ceremonies and helped improve team efficiency through effective conflict resolution and problem-solving strategies.

Junior Developer

Company: StartUp Hub
Industry: E-commerce
Size: Startup
Duration: 2 years

- Assisted in the development of a user-friendly e-commerce platform using **JavaScript** and **PostgreSQL**.
- Contributed to the setup and management of AWS services and **Kubernetes** for application deployment.
- Supported the implementation of machine learning features that personalized user shopping experiences, resulting in a 20% increase in sales.
