Rhonda Fuentes

Email: whitesarah@example.net

Location: Lake Alexandraland

Summary

Passionate and dedicated software developer with over 5 years of experience in building scalable and efficient web applications. Proficient in **Django** and familiar with **Go** and **Rust**, I am adept at developing microservices architectures and have a solid understanding of cloud solutions. With a strong background in project management and agile methodologies, I thrive in collaborative environments where I can contribute to innovative projects that make an impact.

Experience

Software Developer

Tech Innovations Inc. – Lake Alexandraland, CA
March 2020 – Present

- Developed and maintained a **Machine Learning Pipeline** using **Django** and **AWS**, streamlining data processing and reducing computation time by **30%**.
- Led a team to design a **Content Management System** that supports over **1,000** active users, enhancing user experience and accessibility.
- Implemented microservices architecture for various applications, improving deployment speed by **25%** and system reliability.

Junior Software Engineer

NextGen Solutions – Lake Alexandraland, CA
June 2018 – February 2020

- Assisted in the development of a **Payment Processing System**, incorporating secure transaction handling that reduced fraud incidents by **15%**.
- Collaborated with cross-functional teams to integrate **Git** for version control, fostering better project management and team communication.
- Contributed to various internal tools using **C++**, gaining fundamental programming experience and improving code maintainability.

Skills

- **Django**: Advanced
- **Go**: Intermediate
- **Rust**: Intermediate
- **Microservices**: Intermediate
- **Git**: Advanced
- **C++**: Beginner

Projects

- **Machine Learning Pipeline**
  Created an automated pipeline that processes large datasets for machine learning models, resulting in a **40%** increase in model accuracy through optimized data handling.

- **Content Management System**
  Designed and implemented a user-friendly CMS that allows clients to manage their content seamlessly, leading to a **50%** decrease in support tickets related to content updates.

- **Payment Processing System**
  Developed a secure payment processing system that supports multiple

payment methods, achieving a **99.9%** uptime and enhancing user
satisfaction.

Certifications

- **AWS Certified Solutions Architect**
Validated expertise in designing and deploying scalable systems on AWS.

- **Scrum Master Certification**
Certified Scrum Master, proficient in facilitating agile project management
and team dynamics.

Education

Bachelor of Science in Computer Science
Lake Alexandraland University – Lake Alexandraland, CA
Graduated: May 2018

Additional Information

- Actively participating in local tech meetups to share knowledge and learn
  about emerging technologies.
- Passionate about open-source contributions and have contributed to several
  projects on GitHub.
