Diane Miller

Email: uhansen@example.net
Location: South Biancaborough

Summary

Enthusiastic and detail-oriented software programmer with over 5 years of experience in developing scalable web applications and APIs. Proficient in a variety of programming languages and frameworks, with a strong emphasis on creating robust backend services. Passionate about leveraging technology to solve complex problems, and continuously seeking opportunities to innovate and improve processes.

Experience

Software Developer

Tech Innovations Inc., South Biancaborough
January 2020 - Present

- Developed a **Real-time Chat System** using **Flask** and **PostgreSQL**, handling over 10,000 concurrent users with a response time of under 200ms.
- Collaborated in the design and implementation of an **E-commerce Platform** that increased sales by 30% within the first quarter post-launch using **React** and **Node.js**.
- Spearheaded the migration of legacy systems to a **Microservices Architecture**, enhancing system scalability and reducing downtime by 25%.

Junior Developer

Creative Solutions Ltd., South Biancaborough
June 2017 - December 2019

- Assisted in the development of a **Content Management System** that improved user engagement by 45% through intuitive design and faster load times.
- Contributed to the creation of an **API Gateway** that standardized communication between different services, reducing response times by 15%.
- Introduced **Git** as a version control system, improving team collaboration and code quality.

Skills

- **TypeScript**: Advanced
- **React**: Advanced
- **Flask**: Expert
- **PostgreSQL**: Advanced
- **Machine Learning**: Advanced
- **Git**: Advanced
- **Vue.js**: Intermediate
- **Node.js**: Intermediate
- **Rust**: Intermediate
- **Jenkins**: Beginner
- **Redis**: Intermediate

Projects

- **Real-time Chat System**: Engineered a high-performance chat application capable of supporting thousands of users simultaneously with real-time messaging features.
- **E-commerce Platform**: Developed a fully functional online store, integrating payment gateways and implementing user analytics to drive sales strategies.
- **Content Management System**: Created a user-friendly platform that allows non-technical users to manage website content with ease.

- **API Gateway**: Designed an API Gateway that streamlined service interactions and increased data throughput by 20%.
- **Microservices Architecture**: Led the transition from monolithic systems to microservices, resulting in improved deployment times and system resilience.

Certifications

- **Scrum Master Certification** | Scrum Alliance
- **Google Cloud Professional** | Google Cloud
- **Microsoft Azure Developer** | Microsoft

Education

Bachelor of Science in Computer Science
South Biancaborough University, South Biancaborough
Graduated: May 2017

- Relevant Coursework: Advanced Algorithms, Database Systems, Web Development, Machine Learning

---

Personal Interests

- **Open Source Contributions**: Actively contribute to various open-source projects on GitHub, focusing on improving documentation and code quality.
- **Tech Blogging**: Write about programming technologies and trends, sharing insights and tutorials with the developer community.
- **Hiking and Nature Photography**: Enjoy exploring the outdoors and capturing the beauty of nature through photography.
