Location: Lake Michaelstad

Summary

Passionate and detail-oriented programmer with over 5 years of experience in developing robust applications and optimizing existing systems. Adept at leveraging a diverse skill set, including **Django** and **JavaScript**, to deliver high-quality software solutions. Proven ability to work in collaborative environments, with a commitment to continuous learning and professional growth.

Experience

Software Developer

Tech Innovations Inc. - Lake Michaelstad, CA

January 2020 - Present

- Developed and maintained a **Content Management System** that improved content delivery efficiency by 30%.
- Collaborated with cross-functional teams to create a **Data Analytics Dashboard**, enabling real-time data visualization and reporting for stakeholders.
- Implemented **DevOps practices** that reduced deployment time by 50%, leveraging tools such as Docker and Kubernetes.

Junior Software Engineer

Web Solutions Corp. - Lake Michaelstad, CA
June 2018 - December 2019

- Assisted in the development of a full-stack **Web Application** utilizing **Django** and **PostgreSQL**, resulting in a 25% increase in user engagement.
- Contributed to the migration of on-premises applications to **AWS**, enhancing scalability and performance.
- Engaged in peer code reviews, promoting best practices and knowledge sharing within the team.

Skills

- **Django:** Expert
- **JavaScript:** Expert
- **Go:** Advanced
- **PostgreSQL:** Expert
- **DevOps:** Advanced
- **AWS:** Intermediate
- **Angular:** Intermediate
- **Redis:** Intermediate
- **Java:** Beginner
- **Machine Learning:** Intermediate

Projects

- **Content Management System:** Led a team of 4 developers to create a CMS that serves over 10,000 active users, incorporating features such as user roles and content versioning.
- **Data Analytics Dashboard:** Designed a dashboard that integrates with multiple data sources, providing actionable insights that helped the marketing team increase campaign effectiveness by 20%.
- **Web Application:** Developed a responsive web application that streamlined internal processes, resulting in a 15% reduction in operational costs.

Certifications

- **Microsoft Azure Developer**
- **AWS Certified Solutions Architect**
- **Certified Kubernetes Administrator**

Education

Bachelor of Science in Computer Science

Lake Michaelstad University - Lake Michaelstad, CA

Graduated: May 2018

- Completed coursework in Software Development, Database Management, and Cloud Computing.
- Participated in a capstone project focused on building a machine learning model for predictive analytics.

Additional Information

- Actively contribute to open-source projects on GitHub, focusing on enhancing community-driven software.
- Regular attendee at local tech meetups and hackathons, fostering networking and collaboration within the programming community.
