  Score: 949, Exp: 2027-08-03

## Experience

### Senior Software Engineer

**Company:** Tech Innovations Inc.
**Industry:** E-commerce
**Size:** Enterprise
**Duration:** 2018 - Present

- Led the development of a high-traffic e-commerce platform, enhancing user experience and increasing sales conversion rates by 30%.
- Implemented advanced data analytics dashboard features, allowing for real-time insights into customer behavior and inventory management.
- Collaborated with cross-functional teams to ensure that software solutions aligned with business goals and customer needs.

## Software Developer

**Company:** Data Solutions Ltd.
**Industry:** FinTech
**Size:** Startup
**Duration:** 2014 - 2018

- Developed secure and scalable backend systems using Rust and C++, focusing on financial data processing and transaction management.
- Contributed to the successful launch of multiple data analytics projects, leveraging Python for data manipulation and visualization.
- Engaged in agile development practices, participating in daily stand-ups and sprint planning sessions to drive project progress.

## Junior Developer

**Company:** Web Creators Co.
**Industry:** Tech
**Size:** Startup
**Duration:** 2011 - 2014

- Assisted in the development of web applications using Next.js, contributing to frontend features and user interface design.
- Gained hands-on experience with version control systems (Git), improving team collaboration and code quality through effective source management.
- Supported testing and debugging processes to ensure software reliability before deployment.
