Total Experience: 15 years

Summary

Experienced programmer with 15 years in the software development field, specializing in Machine Learning, AWS, and Jenkins. Proficient in strategic planning, agile methodology, cross-functional communication, and mentoring. Committed to delivering high-quality software solutions and driving project success.

Education

M.Sc. in Software Engineering

University of Oxford

- **Rank:** #5
- **GPA:** 3.93

Skills

- **Machine Learning:** Advanced (5 yrs)
- **Data Science:** Intermediate (2 yrs)
- **AWS:** Expert (12 yrs)
- **Jenkins:** Expert (10 yrs)

Soft Skills

- Strategic Planning
- Agile Methodology
- Cross-functional Communication
- Mentoring

Languages

- English (Native)
- French (B2)

Certifications

- **Docker Certified Associate**
  Score: 966, Exp: 2026-08-24
- **Scrum Master Certification**
  Score: 877, Exp: 2027-11-06

Experience

Senior Software Engineer

FinTech Company (Enterprise)
January 2018 - Present
- Led the development of a **Payment Processing System** utilizing microservices architecture, improving transaction speed by 30%.
- Collaborated with cross-functional teams to design a **Web Application** that provides real-time analytics and reporting.
- Mentored junior developers, fostering growth and enhancing team productivity.

Software Engineer

Tech Startup (Startup)

June 2013 - December 2017

- Developed a **Mobile App** for personal finance management, which gained over 100,000 downloads in the first year.
- Implemented CI/CD pipelines using **Jenkins**, reducing deployment time by 50%.
- Contributed to the creation of a **Real-time Chat System**, enhancing user engagement through improved communication features.

Junior Developer

E-commerce Company (Enterprise)

August 2008 - May 2013

- Assisted in the development of various web applications, focusing on user experience and responsive design.
- Engaged in data science projects to analyze customer behavior, leading to data-driven decision-making.
- Supported the migration of legacy systems to AWS, increasing system reliability and scalability.
