Summary

Enthusiastic programmer with 2 years of experience in software development, specializing in building web applications and microservices architecture. Adept in mentoring and team leadership, with strong skills in strategic planning and conflict resolution.

Experience

Software Developer

Tech Innovations (FinTech, Startup)
June 2022 - Present

- Developed and maintained a web application that streamlined financial transactions, enhancing user experience and reducing processing time by 30%.
- Collaborated in a team of 5 to implement microservices architecture, improving system scalability and reliability.
- Utilized Terraform for infrastructure as code, managing cloud resources effectively on AWS.

Junior Software Engineer

Creative Solutions (E-commerce, Enterprise)
June 2021 - May 2022

- Assisted in the development of a major e-commerce platform, focusing on backend services and integration with third-party APIs.
- Participated in code reviews and mentoring sessions, contributing to team cohesion and knowledge sharing.
- Engaged in strategic planning meetings to align technical goals with business objectives, enhancing project outcomes.
