Location: South Angela

Summary

Results-driven software engineer with over 5 years of experience in developing scalable web applications and machine learning models. Proven ability to leverage advanced programming skills in a collaborative team environment. Passionate about utilizing technology to solve real-world problems and enhance user experiences.

Experience

Software Engineer

Tech Innovations Inc. – South Angela
June 2020 – Present

- Developed and maintained an **E-commerce Platform**, resulting in a 30% increase in sales through optimized user experience and real-time data processing.
- Implemented a **Payment Processing System** that streamlined transactions, reducing payment processing time by 25%.
- Collaborated on a **Real-time Chat System** using Vue.js and Angular, enhancing customer support engagement by 40%.
- Led a team in creating a **Machine Learning Pipeline** that improved data analysis accuracy by 15%, assisting in predictive analytics for business strategies.

Junior Software Developer

Future Tech Solutions – South Angela

January 2018 – May 2020

- Contributed to multiple projects, including a **Mobile App** that gained over 5,000 downloads within the first month of launch.
- Assisted in developing backend solutions using **MySQL** and **Java**, improving data retrieval times by up to 20%.
- Collaborated with cross-functional teams to design and deploy features in a timely manner, ensuring alignment with client specifications.

Skills

- **Machine Learning:** Advanced
- **Vue.js:** Expert
- **Angular:** Advanced
- **Java:** Intermediate
- **Python:** Intermediate
- **Go:** Intermediate
- **MySQL:** Intermediate

Projects

- **Payment Processing System**: Led the design and implementation of a secure payment gateway used by over 1,000 active users daily.
- **Machine Learning Pipeline**: Developed a robust pipeline that processed and analyzed large datasets, improving model training efficiency.
- **Real-time Chat System**: Engineered a chat application that supports 500 concurrent users, enhancing user interaction for online services.
- **E-commerce Platform**: Spearheaded the development of a full-stack e-commerce solution featuring real-time inventory management.
- **Mobile App**: Designed a user-friendly mobile application focused on fitness tracking, achieving a high user satisfaction rate.

Certifications

- **AWS Certified Solutions Architect** - Demonstrated expertise in designing distributed systems on AWS, enhancing cloud-based solutions for clients.

Education

Bachelor of Science in Computer Science
South Angela University – South Angela
Graduated: May 2017

- Relevant Coursework: Data Structures, Algorithms, Machine Learning, Web Development

---

Additional Information

- **Languages**: Fluent in English and Vietnamese
- **Interests**: Open-source contributions, tech meetups, and AI ethics discussions.
