- **Hourly Rate:** $131/hr
- **Total Experience:** 10 years

Summary

Accomplished programmer with 10 years of experience in software development and data science. Proficient in various programming languages and technologies, including Java, Node.js, and C++. Strong soft skills in Scrum, conflict resolution, mentoring, problem-solving, and agile methodology.

Education

PhD in Artificial Intelligence

Warsaw University of Technology

- **Rank:** #50
- **GPA:** 3.97

Skills

- **Java:** Expert (8 years)
- **Node.js:** Expert (7 years)
- **C++:** Expert (9 years)
- **Data Science:** Expert (10 years)
- **AWS:** Advanced (6 years)
- **Git:** Beginner (1 year)

Soft Skills

- Scrum
- Conflict Resolution
- Mentoring
- Problem Solving
- Agile Methodology

Languages

- **English:** Native

Certifications

(No certifications listed)

Experience

Senior Software Engineer

E-commerce Platform
Industry: E-commerce
Size: Enterprise
Duration: 4 years
- Developed and maintained a high-traffic e-commerce platform, enhancing user experience through the integration of real-time data analytics and responsive design.
- Led a team of developers to implement a Content Management System, ensuring seamless content updates and user engagement.
- Collaborated with cross-functional teams to optimize system performance, resulting in a 30% increase in customer satisfaction ratings.

Data Scientist

Data Analytics Dashboard
Industry: FinTech
Size: Startup
Duration: 3 years
- Designed and developed a comprehensive data analytics dashboard that provided actionable insights for financial decision-making.
- Utilized advanced data science techniques to analyze complex datasets, improving predictive analytics capabilities by 40%.
- Presented findings to stakeholders, leading to strategic adjustments that enhanced revenue streams.

Software Developer

Real-time Chat System
Industry: Telecommunications
Size: Startup
Duration: 3 years
- Engineered a real-time chat system that facilitated seamless communication for users across multiple platforms.
- Implemented robust backend solutions using Node.js, ensuring high availability and scalability.
- Participated in agile development processes, contributing to sprint planning and retrospective meetings to continuously improve team efficiency.
